

JOIN US WEDNESDAY AT OUR LUNCH SEMINAR

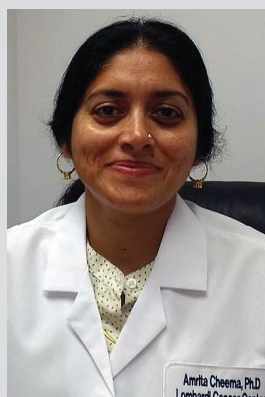

Wednesday, June 27 | 12:20 pm - 1:20 pm | Location: Tahoma 3

Unraveling the Complexities for Biomedical Research Using Metabolomics

Please join us for lunch as we learn from two leading experts in the field of biomedical research who will share their valuable insights on their metabolomic methodologies.

Introduction | 12:20 pm - 12:25 pm

Jimmy Yuk, Senior Manager, Biomedical Research Global Market Development,
Waters Corporation

12:25 pm - 12:50 pm

Metabolic Reprogramming Abets Epithelial to Mesenchymal Transition in Pancreatic Cancer

Presented by: Professor Amrita Cheema

Associate Professor and Director of Operations (Proteomics
and Metabolomics)

Georgetown University

12:50 pm - 1:15 pm

Process Control for Untargeted Metabolomics

Presented by: Dr. Jennifer Dennison

Associate Director

Research Planning and Development

University of Texas MD Anderson Cancer Center
